

On behalf of me and my family I would like to urge you to reject the NAB's petition 04-160 which would prevent XM RAdio from broadcasting certain features which I use everyday. I currently drive everyday between two different Southern California counties. XM gives me the ability to listen to weather and traffic data before I get to the different county, and I can listen to it when I need it. I pay good money for this service and it is one of the primary reasons I have XM as a commuter. Not having this service would be an extreme inconvenience to me. If you have any questions or comments please let me know. Thank you.

Regards,

Babu Barat
